REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Pessier et al. U.S. 5695018 discloses a $7 \frac{7}{8}$ inch bit with an offset of $\frac{3}{16}$ inches. This fits within the range in independent claim 44. However, Pessier et al. discloses that the cutting elements are formed from of a hard metal like tungsten carbide and not a super-abrasive material. See Affidavit of Michael A. Siracki filed on 10/20/02 for reasons why it is not obvious to combine a bit as described above with a super-abrasive material.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
